

## Instruction for String block

Collect strips of your scraps or a collection of 2.5" strips

Cut the 2.5" strips in half – or cut 1.25" or 1.5" strips from you scraps

Pick your center color and make sure you have 4 - 9" strips of that color

Cut 4 6.5" squares of Muslin (these will be your foundation pieces)

Draw a line diagonally on the squares.

Place your center color strip on the line right side up. Place your next color on the first strip right side down.

Sew a quarter in seam. Press open.

Lay another strip on the opposite side of the center strip and sew and press.

Keep up till you fill the square.

Sew the squares together to form a

12.5" block.

Tips – if you want your inside and outside corners to match use a 2.5" square to the corners

Flip blocks over and trim to the muslin 6.5" and sew the 4 together for your 12.5" unfinished square.
